June 15, 2004

The Honorable Vernon A. Williams  
Secretary  
Surface Transportation Board  
1925 K Street NW  
Washington, D.C. 20423

*received  
6/28/04*

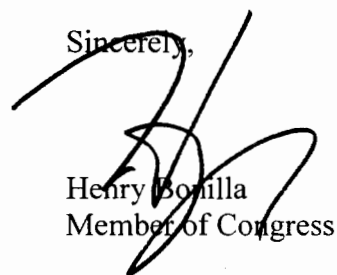

Case#: 2028573

Dear Secretary Williams:

Please find enclosed correspondence from my constituent, Dr. Robert Fitzgerald, President of the Medina County Environmental Action Association (MCEAA), Quihi, Texas. Dr. Fitzgerald on behalf of the MCEAA and Medina County citizens' have requested I submit their petition containing 776 signatures to the Surface Transportation Board (STB). Each petitioner states that they are opposed to the proposed Vulcan Materials, Southwest Gulf Railroad project which would construct a quarry and rail line in Quihi, Medina County, Texas. Additionally, my constituents request the STB conduct a connected action study of both the purposed Vulcan Materials quarry and the Southwest Gulf Railroad in the Environmental Impact Study.

I ask that you please give their request the utmost consideration. Thank you for your prompt attention to this matter.

Sincerely,

Henry Bonilla  
Member of Congress

## PETITION

I am opposed to the proposed Vulcan/Southwest Gulf Railroad project for a quarry and rail line in Quilhi, Medina County, Texas because of the many harmful impacts this project will have on this area, including our air, water, roads, historical heritage and the environment in general.

In addition, unless the Surface Transportation Board makes the decision in accordance with certain legal requirements to study both the quarry and the railroad as connected actions, the quarry will not be included in the Environmental Impact Study (EIS).

I, the undersigned, therefore, request that the STB do a connected action study of both the quarry and the railroad in the EIS.

# PETITION

I am opposed to the proposed Vulcan/Southwest Gulf Railroad project for a quarry and rail line in Quith, Medina County, Texas because of the many harmful impacts this project will have on this area.

In addition, unless the Surface Transportation Board makes the decision in accordance with certain legal requirements to study both the quarry will not be included in the Environmental Impact Study.

I, the undersigned, therefore, request that the STB do a connected action study of both the quarry and the railroad in the EIS.

# PETITION

I am opposed to the proposed Vulcan/Southwest Gulf Railroad project for a quarry and rail line in Quilbi, Medina County, Texas because of the many harmful impacts this project will have on this area

In addition, unless the Surface Transportation Board makes the decision in accordance with certain legal requirements to study both, the quarry will not be included in the Environmental Impact Study.

I, the undersigned, therefore, request that the STB do a connected action study of both the quarry and the railroad in the EIS.

# PETITION

I am opposed to the proposed Vulcan/Southwest Gulf Railroad project for a quarry and rail line in Quilhi, Medina County, Texas because of the many harmful impacts this project will have on this area, including our air, water, roads, historical heritage and the environment in general.

In addition, unless the Surface Transportation Board makes the decision in accordance with certain legal requirements to study both the quarry and the railroad as connected actions, the quarry will not be included in the Environmental Impact Study (EIS).

I, the undersigned, therefore, request that the STB do a connected action study of both the quarry and the railroad in the EIS.

# PETITION

I am opposed to the proposed Vulcan/Southwest Gulf Railroad project for a quarry and rail line in Quin, Medina County, Texas because of the many harmful impacts this project will have on this area.

In addition, unless the Surface Transportation Board makes the decision in accordance with certain legal requirements to study both, the quarry will not be included in the Environmental Impact Study.

I, the undersigned, therefore, request that the STB do a connected action study of both the quarry and the railroad in the EIS.

June 4, 2004

U. S. Congressman Henry Bonilla  
Gabe Lozano, Legislative Assistant  
11120 Wurzbach, Suite 300  
San Antonio, TX 78230

Re: Vulcan Materials/Southwest Gulf Railroad  
Proposed Quarry/Rail Line Project  
Quihi Area, Medina County  
Surface Transportation Board  
STB Finance Docket 34284

Dear Congressman Bonilla:

The MCEAA is submitting an additional 239 signatures on the petition to the Surface Transportation Board stating the Medina County citizens' opposition to Vulcan Material/SGR proposed Quarry/Railroad project. Additionally, because the quarry and railroad are connected actions, the petitioners are requesting that impacts of both the quarry and the rail line be studied in the EIS.

The petition began April 24, 2004, and 537 signatures of persons who would be affected by this project if it were allowed to proceed were submitted on May 21, 2004.

The petition is as follows:

**PETITION**

I am opposed to the proposed Vulcan/Southwest Gulf Railroad project for a quarry and rail line in Quihi, Medina County, Texas because of the many harmful impacts this project will have on this area, including our air, water, roads and historical heritage.

In addition, unless the Surface Transportation Board makes the decision in accordance with certain legal requirements to study both, the quarry will not be included in the Environmental Impact Study..

I, the undersigned, therefore, request that the STB do a connected action study of both the quarry and the railroad in the EIS.

This brings to the total signatures to this petition to 776.

The 239 signatures submitted with this letter include 135 signatures from the residents of Creekwood Ranches Subdivision, who would be adversely affected by this project if it were allowed to proceed. Creekwood Ranches Subdivision is immediately west of Lot 12 of Dunlay Acres Subdivision. As you may know, Vulcan Materials, using the name of MedTex Lands, purchased lots 10, 11, and 12 of Dunlay Acres on July 21, 2000, with the

intention of connecting their proposed rail line to the existing Union Pacific rail line which crosses under U S Hwy 90 at that location. This is evidenced by the change in the subdivision's restrictions on an amendment to the restrictions executed in June, 2000, to allow a railroad on Lot 12. Map enclosed.

On behalf of MCEAA, Inc., please forward this letter and these 239 signatures to the Surface Transportation Board under Finance Docket Number 34284.

MCEAA believes that these petitions reflect the will of an overwhelming majority of Medina County residents who know about this proposed project. We trust that this evidence of the will of the people will assist STB in arriving at a correct and just decision in this matter.

Sincerely,

Dr. Robert T. Fitzgerald, President  
MCEAA, Inc.

# PETITION

I am opposed to the proposed Vulcan/Southwest Gulf Railroad project for a quarry and rail line in Quilhi, Medina County, Texas because of the many harmful impacts this project will have on this area, including our air, water, roads and historical heritage.

In addition, unless the Surface Transportation Board makes the decision in accordance with certain legal requirements to study both, the quarry will not be included in the Environmental Impact Study..

I, the undersigned, therefore, request that the STB do a connected action study of both the quarry and the railroad in the EIS.

# PETITION

I am opposed to the proposed Vulcan/Southwest Gulf Railroad project for a quarry and rail line in Quithi, Medina County, Texas because of the many harmful impacts this project will have on this area, including our air, water, roads and historical heritage.

In addition, unless the Surface Transportation Board makes the decision in accordance with certain legal requirements to study both, the quarry will not be included in the Environmental Impact Study..

I, the undersigned, therefore, request that the STB do a connected action study of both the quarry and the railroad in the EIS.

Medina County
